CONTENT CREATION

A woman with long brown hair, wearing a green suit, is the central figure in the background of the entire page. She is looking directly at the camera with a neutral expression. The background is a clear blue sky with some faint clouds and a building visible in the distance. The text "Donotsaycheese" is written in a cursive font at the top center.

just improve your online appearance & to create

Creative concept for a Jewelry brand

A Jewelry brand asked us to create a content plan from scratch.
We made the plan from A to Z (from idea, concept, finding the
right model, the location, and the whole concept)

What we do

We work on a very personal base.

Everything we do, we do it for you but also with you. We believe in a strong, clear and transparent way of communication.

So we will always share our plans with you along the way.

So that you will be aware of what we do, how we do it and why we do it.

We take you on the journey with us, in a way you are comfortable with. We will figure that way out when we meet up!

We work for starting & successful restaurants, hotels & other lifestyle brands that either need help building their (online) brand identity & increase their online engagement or that are in (sometimes desperate) need to improve their online presence.

What we offer is to take over the whole deal:

From a brand new working website, to creating promo/campaign videos and shoots, to creating relevant content for your Social Media pages and to manage all these pages, to taking care of all flyers, newsletters and to translate current activities into new content. And to launch a new product / happening or organise an event.

Or just one element of this all, depends on what you need or wish.

To establish a clear line of communication for your brand we prefer to work on longterm collaborations, to make sure we create 1 recognisable, consistent style for your brand. We created 3 kind of Plans, you will find all the information on the next pages.

Your brand DNA

As real and pure content-creators, we want to learn, speak and improve your language, your vision and your brand DNA.

As soon as we meet, we will dive right in, to check it all inside out.

Together with you -as its- your brand- we will create a way;
a strategic to translate the plan into the real impact.

you just have to trust us :)

Creating a strong consistent voice across all relevant forms of media.

Turning complicated, plain content and social mediapages into a personal, visual storytelling. All in the style that fit your brand / DNA and online image.

We provide you with an online signature that will pave a clear path for all your future brand communication.

**IF YOU NEED MORE CONVINCING TO INVEST IN YOUR ONLINE PRESENCE,
HERE'S 6 REASONS WHY TO SERIOUSLY CONSIDER IT:**

- > Your Competitors Are Successful on Social Media
 - > Your Audience Lives On Social Media
- > The Potential of Viral Social Media Content
 - > Social Media Is Cost-Effective
- > You get insights in your Target Audience

We manage all under 1 roof

THE BEST THING ABOUT WORKING WITH USS IS THAT EVERYTHING HAPPENS UNDER ONE ROOF.

We take over your creative work from A-Z, so you only have to focus on your core business.

You are setting up a new brand/ business / organization from scratch?

Want to launch a new product?

We help you create a **on - and offline** plan for it.

Want a new website?

We got you covered!

Instead of finding a graphic designer for your logo, a photographer for your photo's, a website builder for your website and creatives for your social media we got you covered all at one place.

The benefits are endless.

If you need a new website, we will design it for you. If you have news to share, we send out a press release about your new service. We create your newsletters & shoot content so your Social Media pages outshine all competitors. We create a promo video that puts you on the map in once and for all, and make sure all the right people see it.

The good thing: we do not only offer online services. So, you want to organise a brand event? We will manage all of it. From the booking of the catering company, to find the right location, the invitation process, the promotion, till the day it self!

How it works

We prefer a direct approach. We work fast and are easily reachable via Whatsapp, phone, e-mail, Social Media. For years, we have worked in the event scene, so office hours are just not our thing ;)

YOU CHOOSE THE PACKAGE THAT FITS YOUR NEEDS IN THE NEXT PAGES

With the goal to:

- Reach more online, visibility,
- Create 1 consistent style for your brand
- Create more conversion & drive sales
- Always have enough current content available
- Never stress again about what to post / When to post it / How to do it

So you can focus on other things, and let us handle the visual and online world. We build your online brand from scratch, or we give it the fresh breath of air it deserves.

About Critical Alignment Yoga

Critical Alignment Yoga was developed by Gert van Lamsweert more than 30 years ago and focuses on the deepest level in the body, the skeleton. The technique of Critical Alignment Yoga is unique, in that the exercises are approached with relaxation instead of effort. Using specialized props, your spine is placed in a more natural alignment, and then you are encouraged to relax fully and deeply. First the superficial movement muscles, where most of the tension from repetitive strain or poor posture is stored, are relaxed by using the weight of the body on the props. With deep and conscious breath, you can work through the strong sensations and start to add small movements which help eliminate the deeper postural and stability muscles, order in the bones. You become more familiar with your body, finding exactly where the tension, softness and poor alignment is located. The awareness can then transfer into your daily life and activities.

The three steps of CAV: relaxation - movement - strength coordination

If you are not in possession of the CAV props yet you can click on the prop - to go to the website of Gert van Lamsweert, or send me an e-mail.

THE HIGH TEA TOUR

De Bakkerswinkel mist haar lieve gasten. En de gasten missen onze High Tea. Daarom besloten wij met onze High Tea op tour te gaan! Met een rek en een doos vol lekkers gaan we door Amsterdam om mensen amen te brengen in de Lockdown, of bij gezinnen die even stil kunnen staan bij het samen zijn. Even dat momentje pakken en samen genieten.

#STAYHOME

#1. High Tea Tour

We gingen langs bij vrienden Floris en Thom, in Amsterdam.
Op een donderdagochtend.
Floris is personal trainer en Thom werkt als Recruiter.

Thom:

'Door de Lockdown zien zij elkaar minder. Een High-tea is een super leuke, gezellige manier om even bij elkaar te komen en bij te praten. En de producten zijn gewoon goddelijk!'

Floris:

'Je denkt hier zelf niet snel aan, maar des te verrassend.
Wij gaan hier een vast moment voor inlassen!'
